# The excellence in the manufacturing process

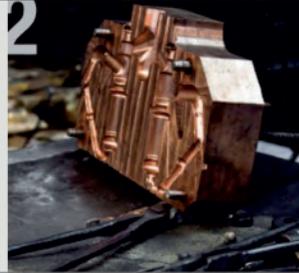

Creative & innovative methods in manufacturing deliver the cutting edge in Bath Products.  has a distinct edge due usage of the latest manufacturing technologies to produce a very wide range of Exclusive Product as Per Customer Imaginations

The latest state of art machines and equipments were inducted by , which will used to convert concepts into reality. The Company is flexible to adopt the external market shift and this continues to remain as the sustained strategy of being focused and aligned with market realities.

## Design

 designed with a focus on modern aesthetics, durability, and functionality.

## Moldes

 makes Die/Mould itself by using of high class VMC Machine to get a beautiful shape and size.

## Casting

 uses Ingots and Honey brass as a raw material which comes with a fixed percentage of copper and lead unlike others where scrap is mixed with zinc in an uncontrolled environment,  has an in house electric furnace with thermostatic control.

## Sand care Pullers exteaction

 makes Die/Mould itself by using of high class VMC Machine to get a beautiful shape and size.

## Machining

 uses CNC Lath Machine & Heavy duty imported double spindle machines for machining processes like Boring, Turning, Drilling.

## Polishing

We grind the faucet to give smooth finish and check every single piece for our satisfaction.

## Quality Control

 makes Die/Mould itself by using of high class VMC Machine to get a beautiful shape and size.

## Assembly

After casting, machining and electroplating, products are ready to assemble Our assembling uniti is perfect for their work.

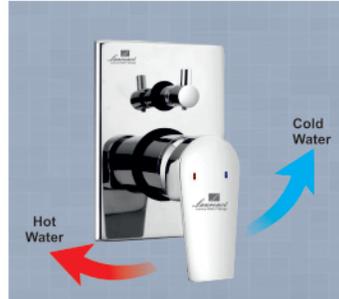

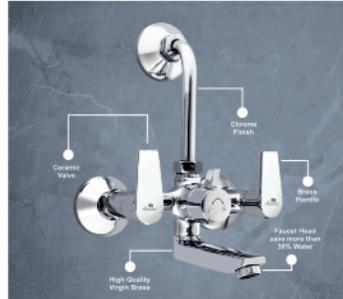

## Packing

We packed the faucet in smart strong box.
